I'm an expert at science

My favorite book is The Titanic

My best school subject is Gym

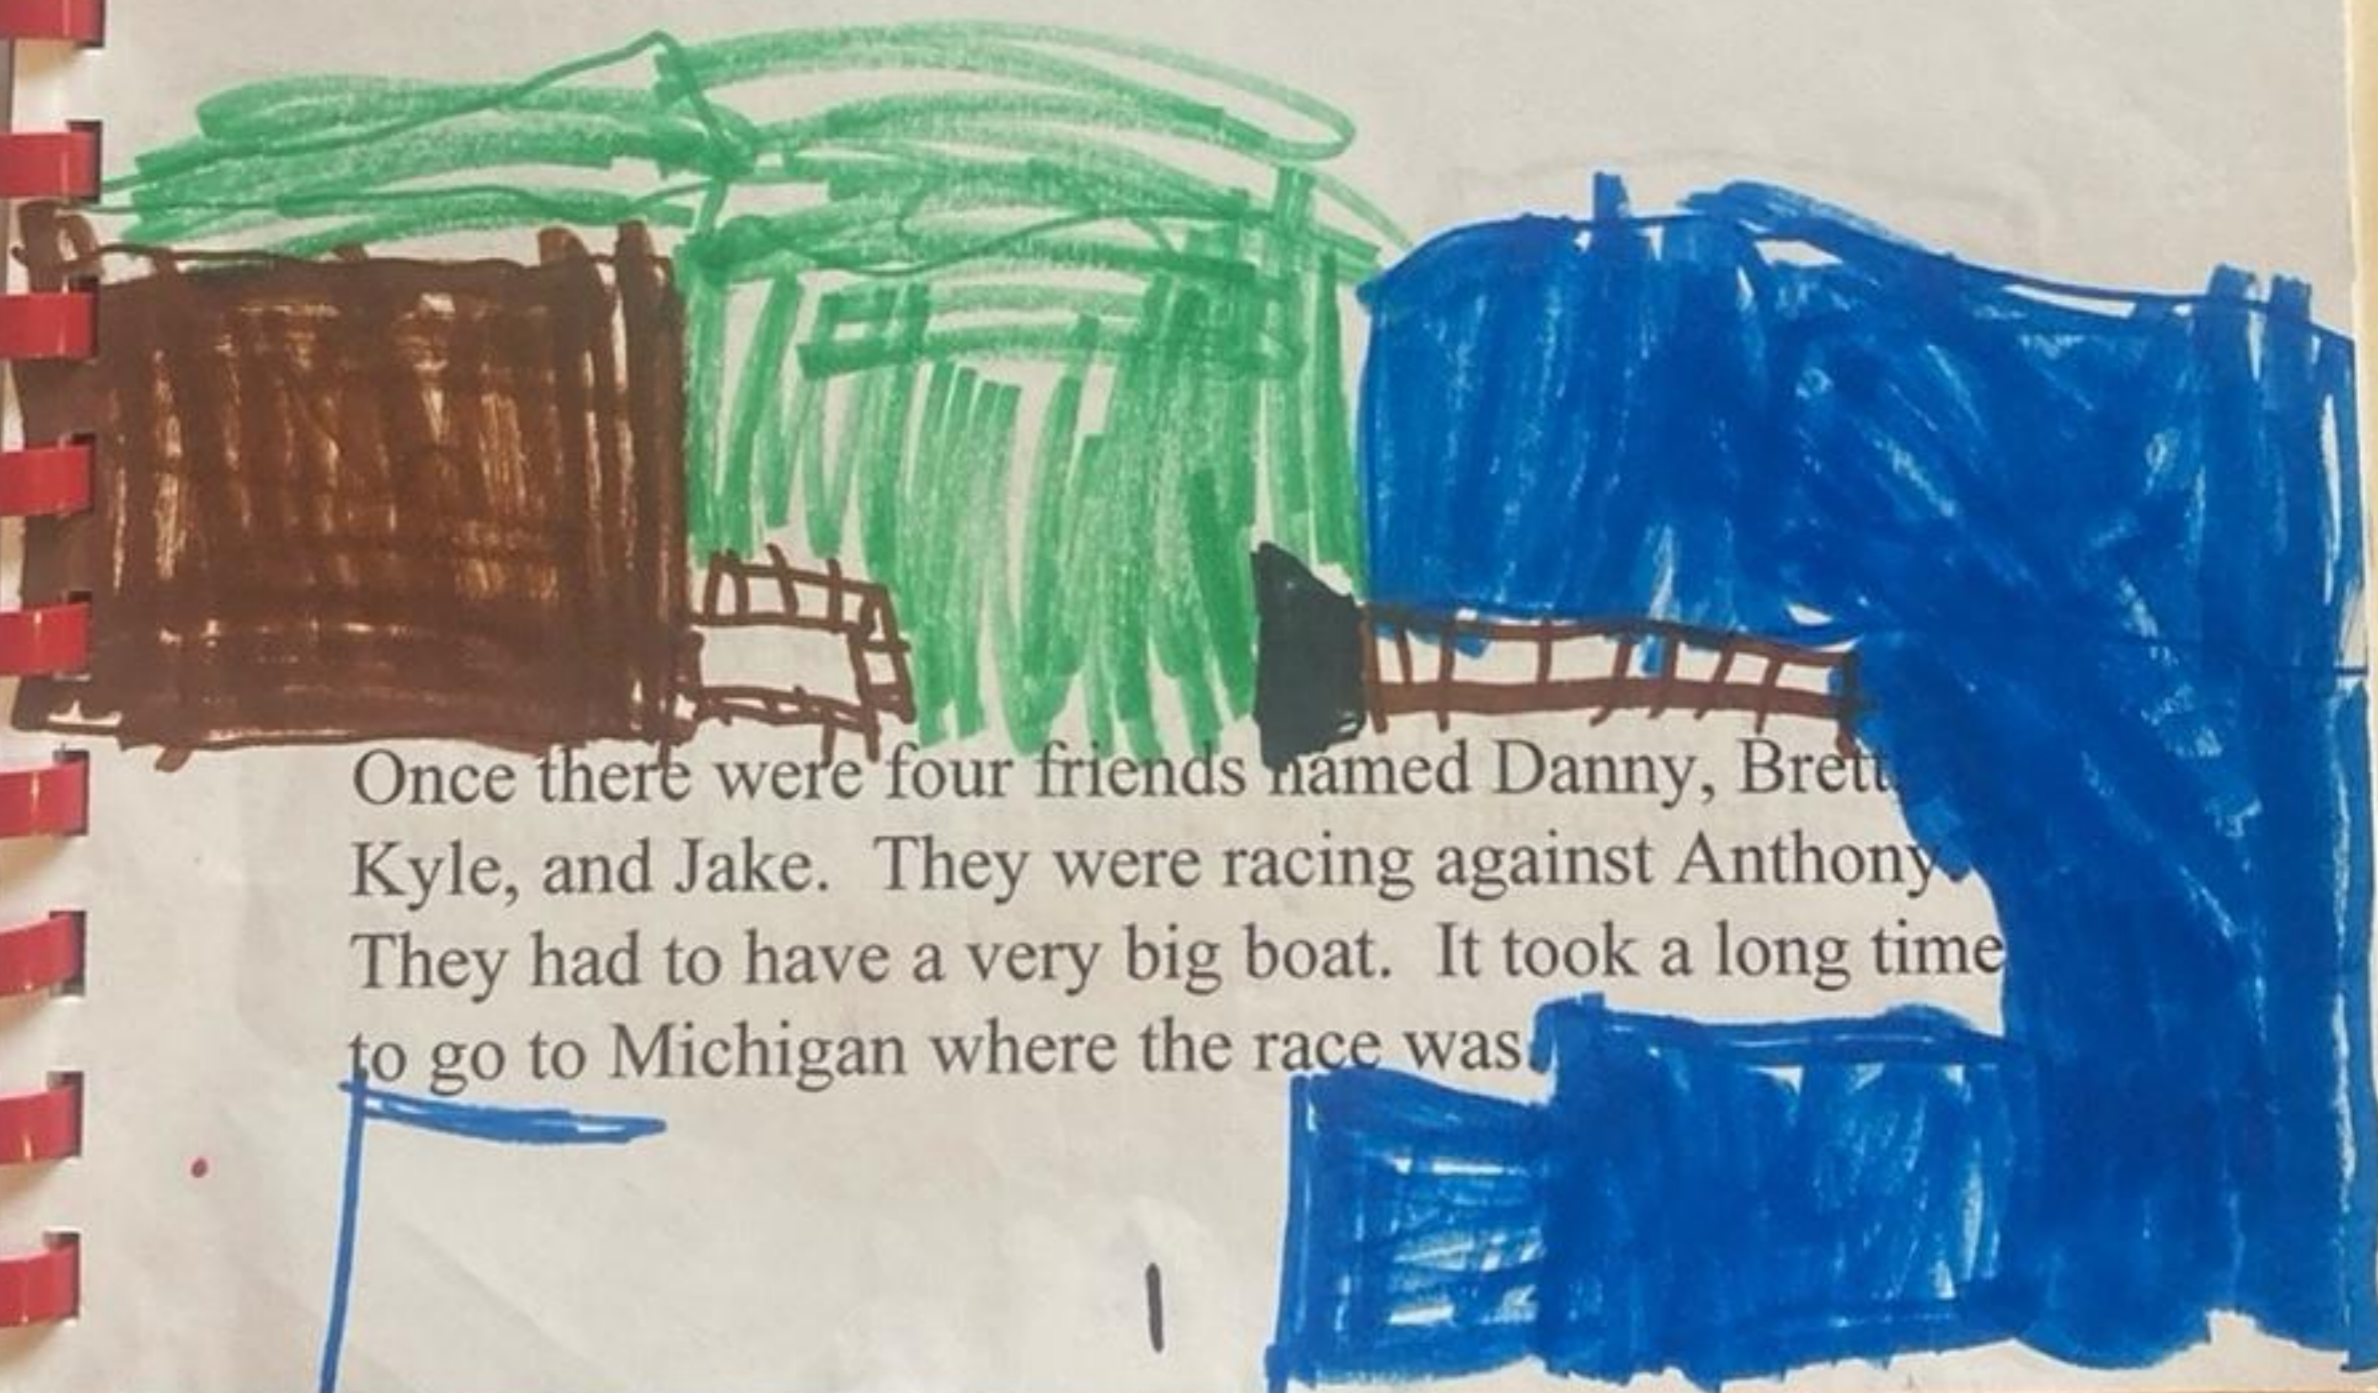

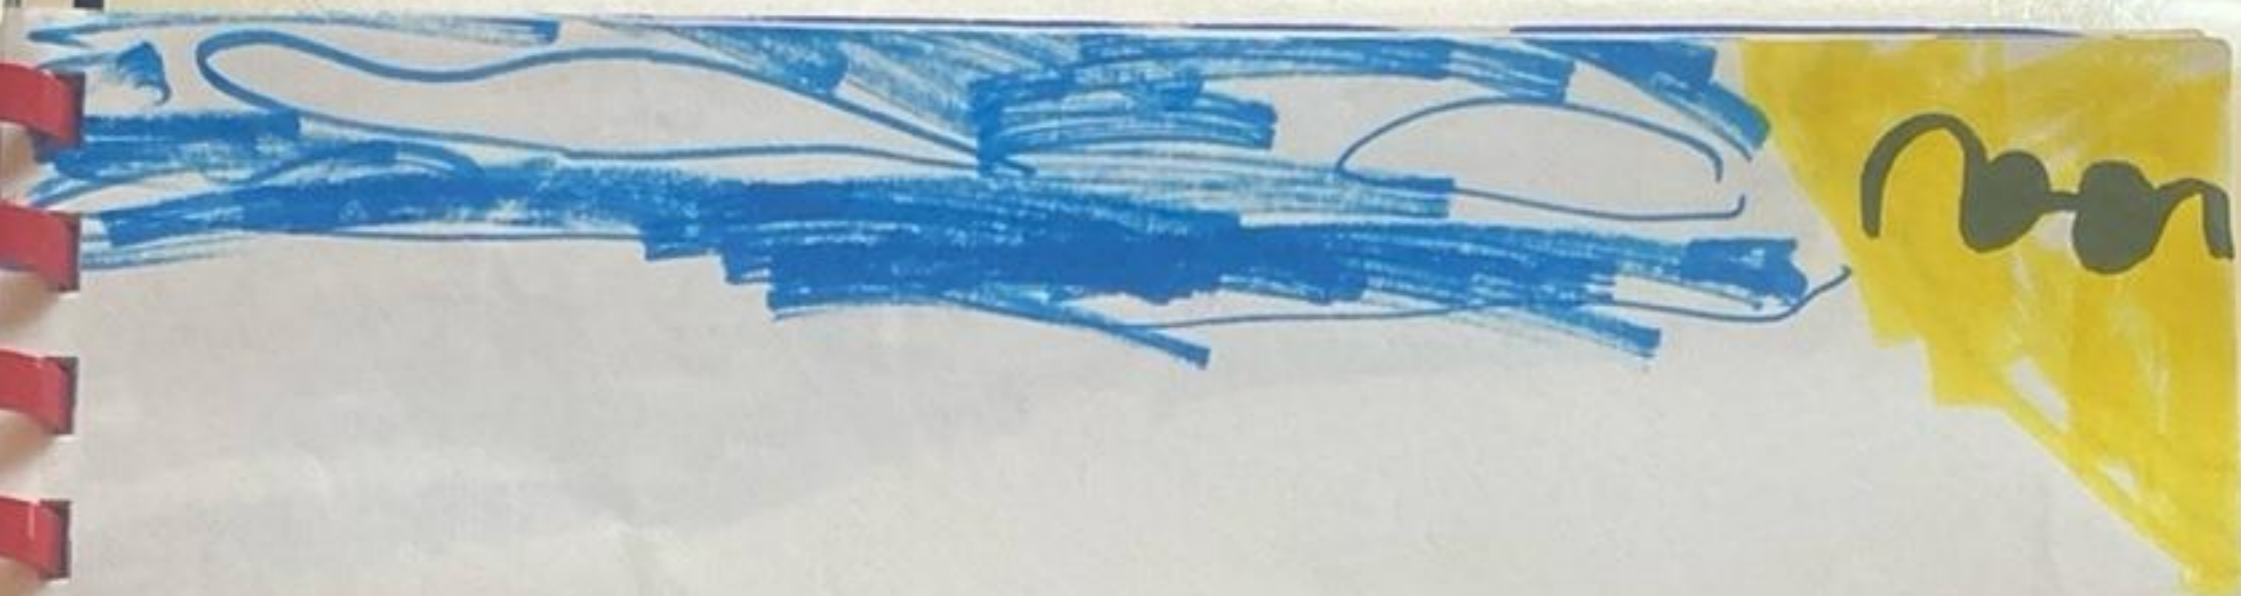

because it's fun

What I like to do most is play with my friends

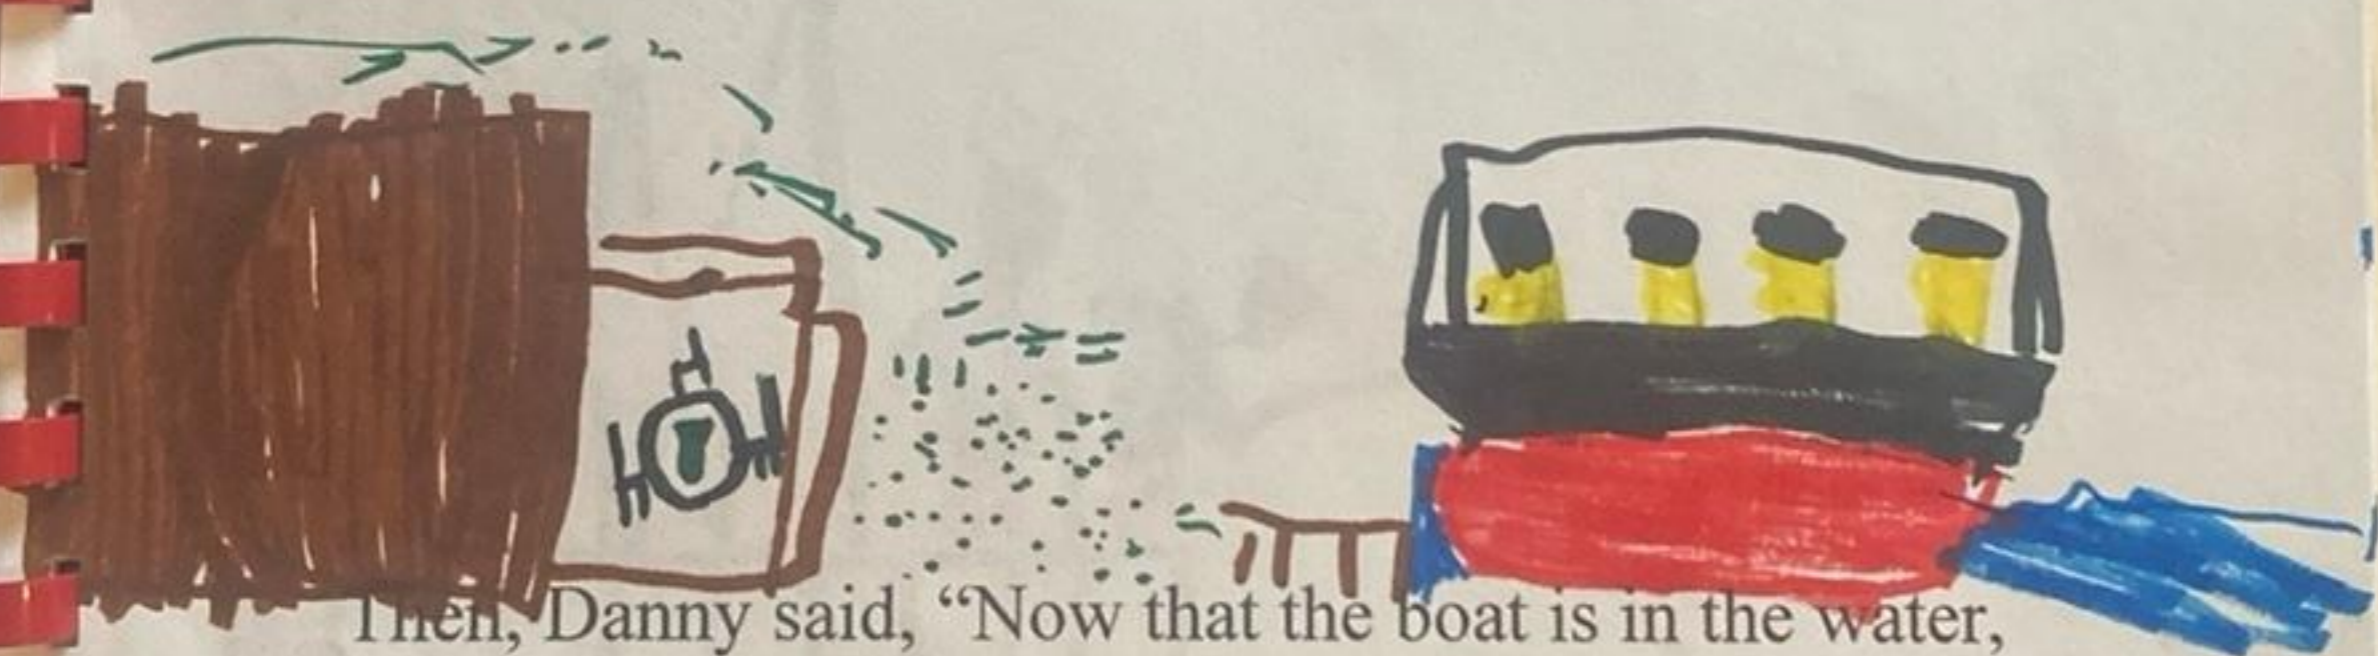

When I grow up I will be a football player

Other books by this author: 2

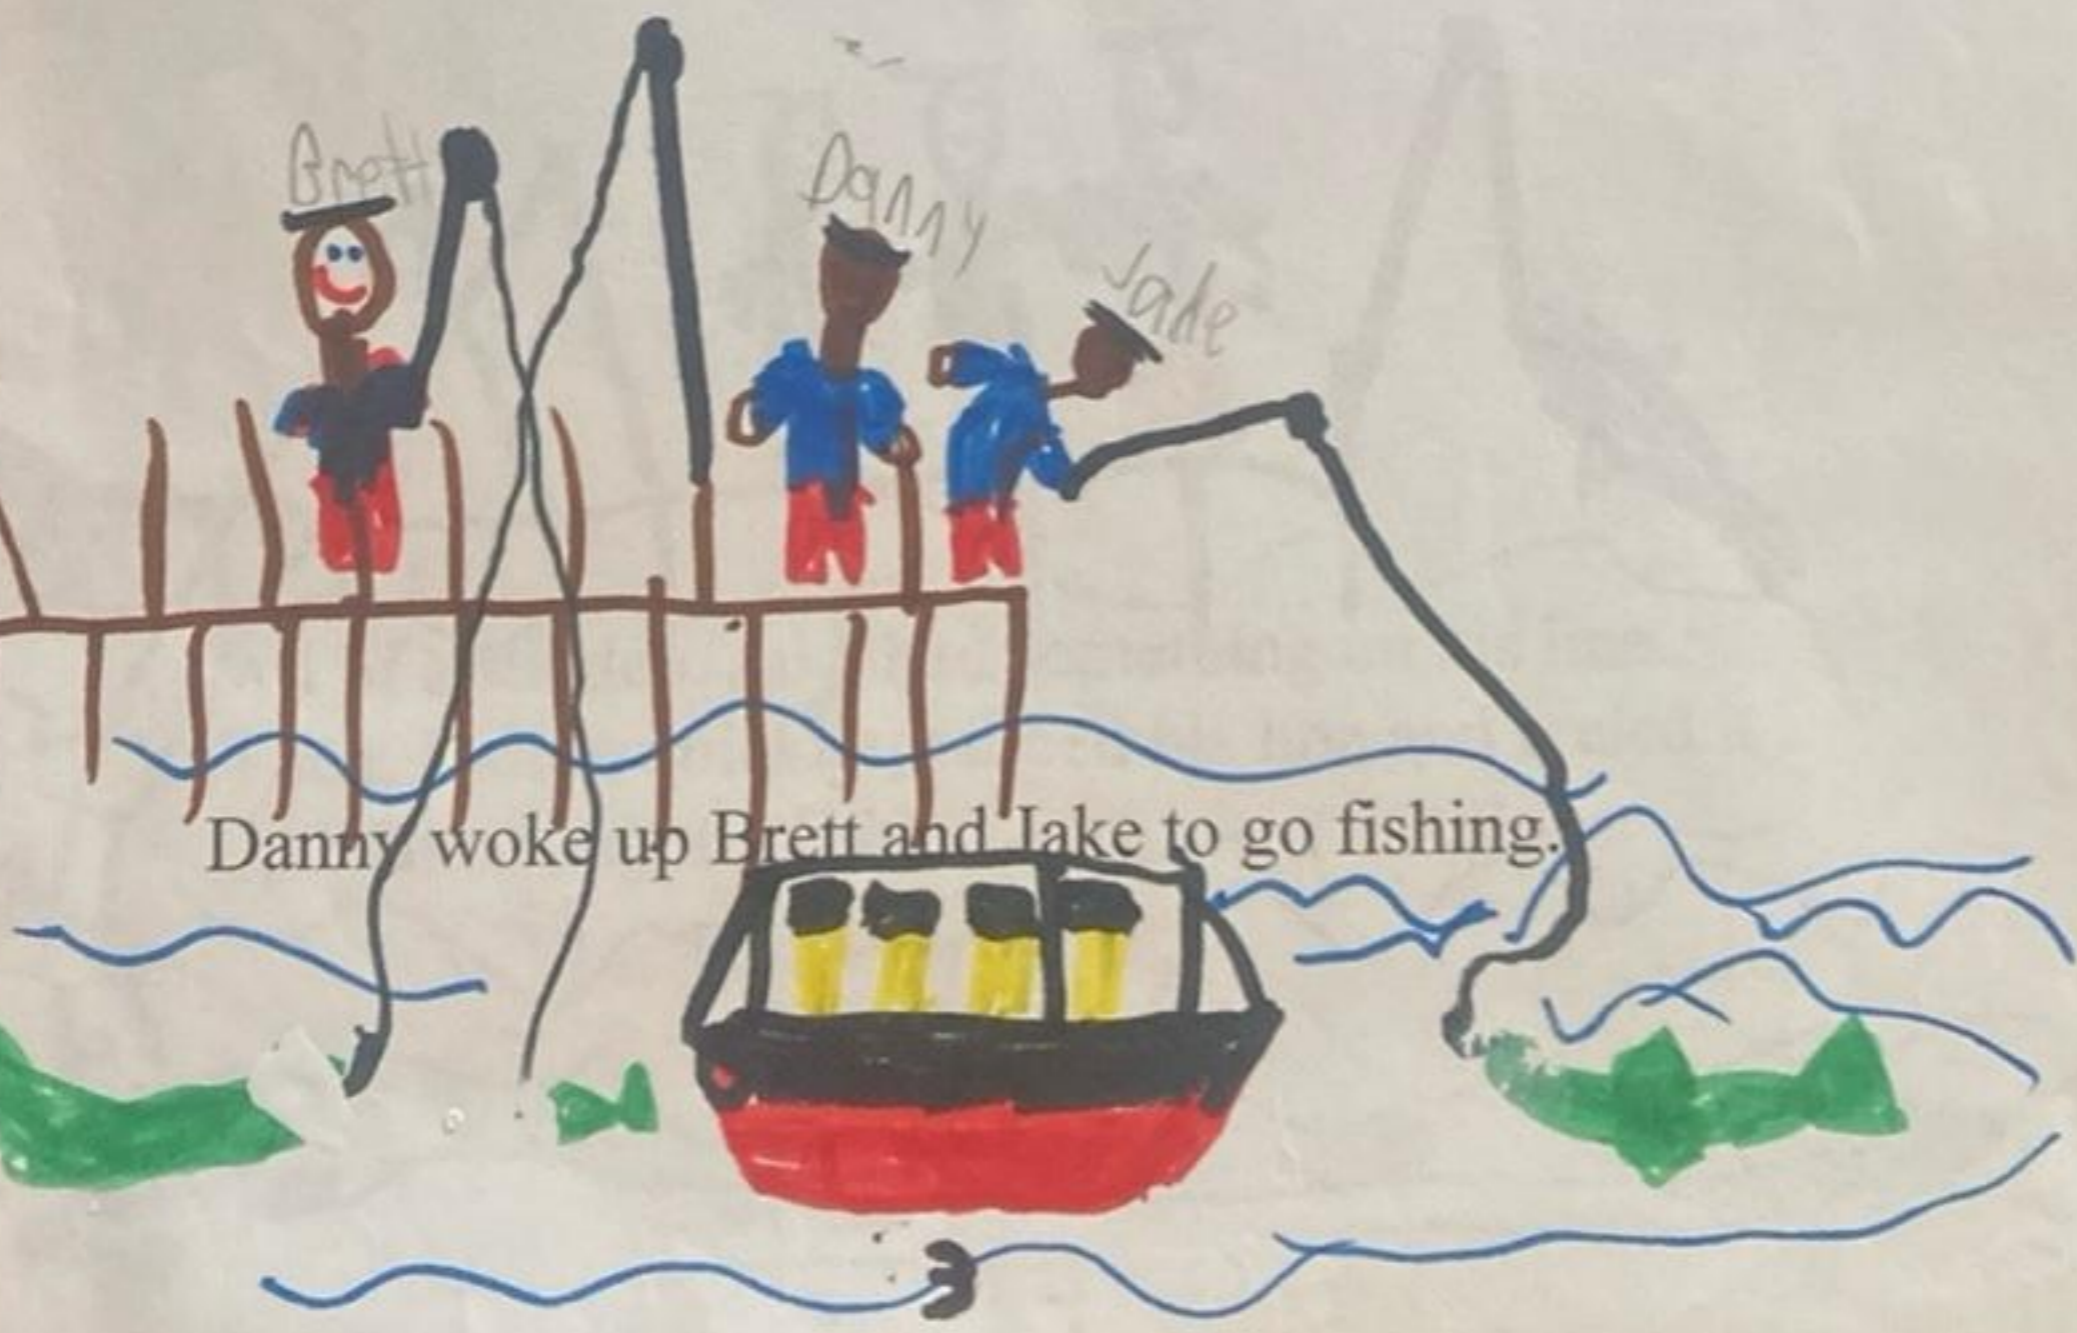

Once there were four friends named Danny, Brett, Kyle, and Jake. They were racing against Anthony. They had to have a very big boat. It took a long time to go to Michigan where the race was.

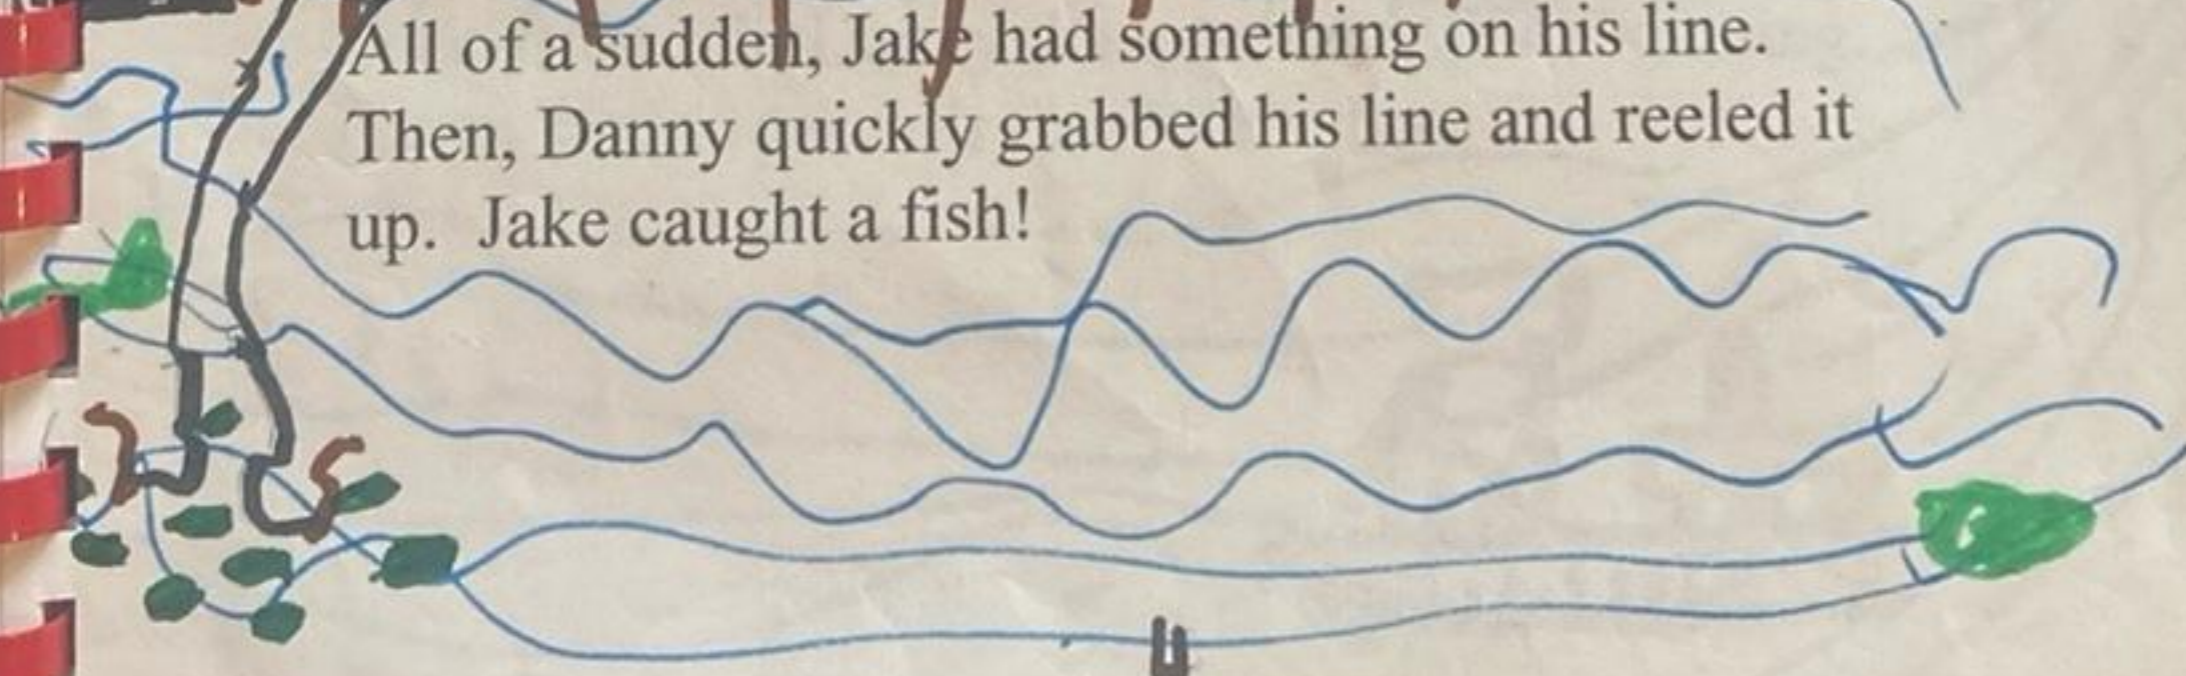

Then, Danny said, "Now that the boat is in the water, we can eat." Then, Danny, Brett, Kyle, and Jake went to bed. In the morning it was the day of the race.

Danny woke up Brett and Jake to go fishing.

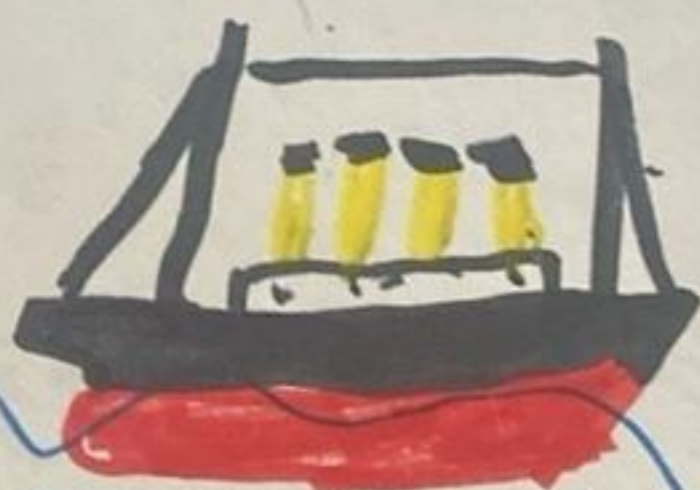

All of a sudden, Jake had something on his line.  
Then, Danny quickly grabbed his line and reeled it  
up. Jake caught a fish!

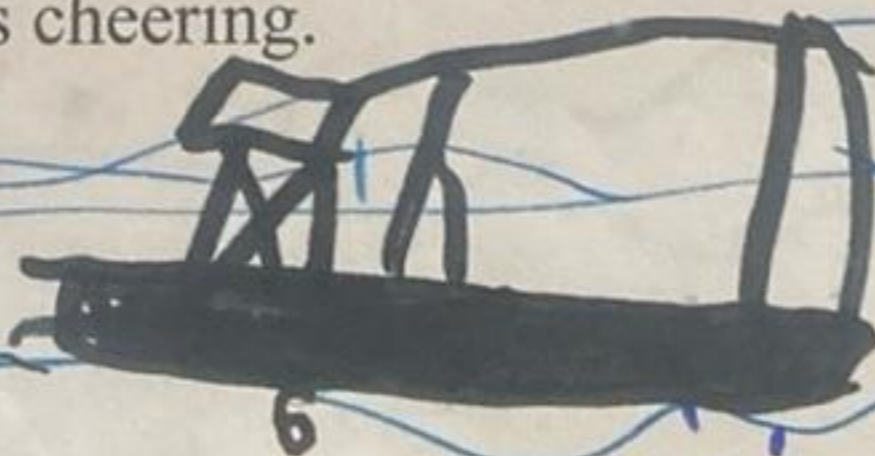

Then Brett told Danny the boat race was beginning.  
Danny had to get everybody together.

The boys went on the pier and started their boat, the Titanic! The Titanic propellers started and everybody was cheering.

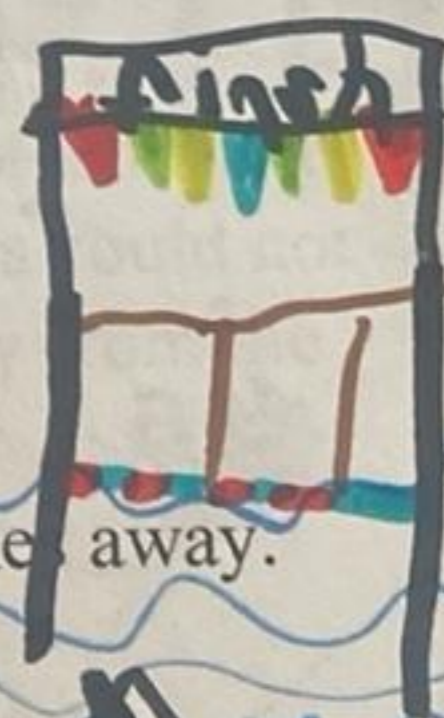

"Oh, no!" said Danny. There was a log in the water.  
The ship hit the log. It scraped the starboard side,  
then hit the water.

Water was gushing in the boat. Then the boat started to sink. Kevin grabbed the rope and threw it on the funnel of the boat. After they fixed the boat, it zoomed across the water. They were beating Anthony!

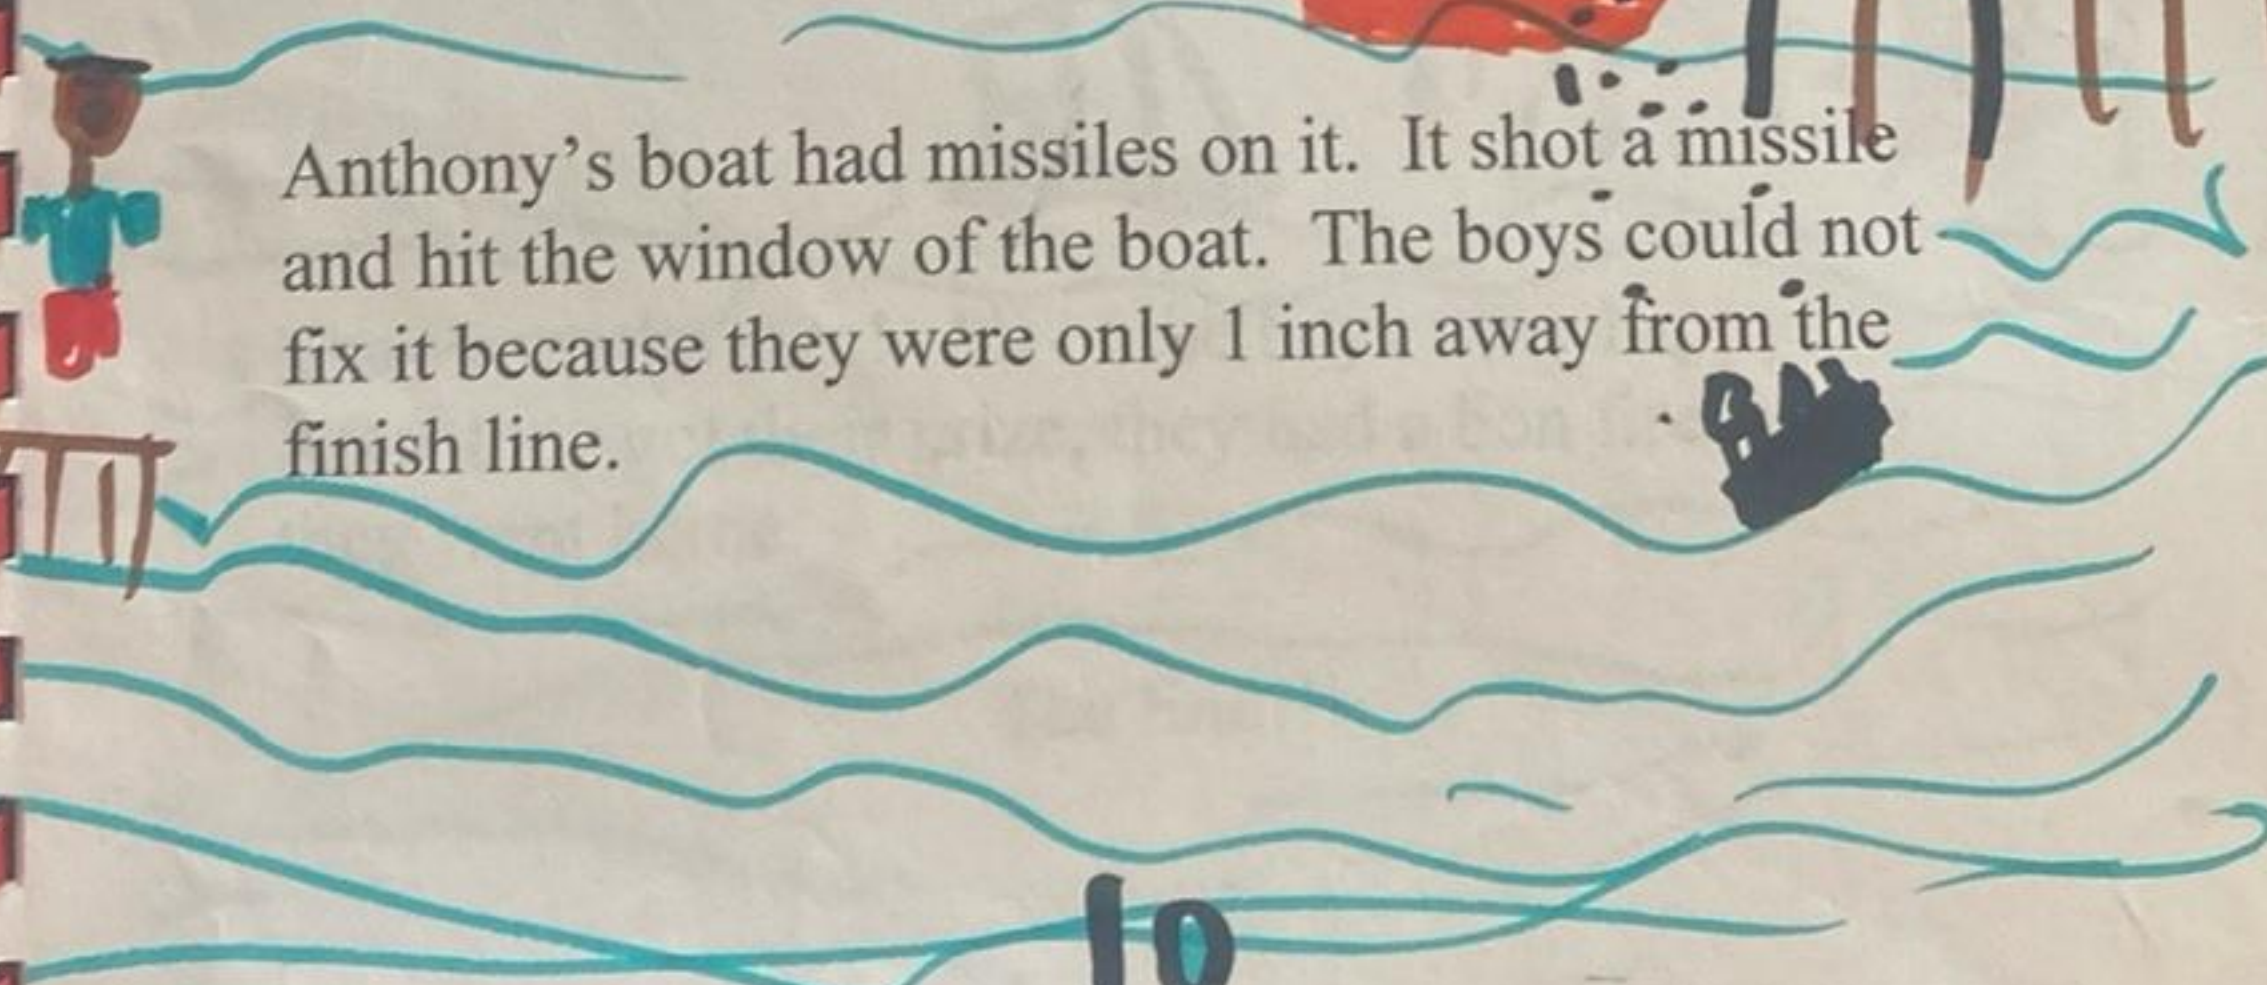

They saw the finish line a couple of inches away.

Anthony's boat had missiles on it. It shot a missile and hit the window of the boat. The boys could not fix it because they were only 1 inch away from the finish line.

They won the race! All of the boys were happy!  
After they got their prize, they had a bon fire and  
they went home.

The End!!!

It was cool  
great story  
Brett could  
your book  
was the  
best book  
I read  
best friend

Thanks for  
putting me  
in it.

Your Pal,

Kyle Duckworth

Once there were six friends named Danny J., Danny H., Kyle, Brad, Jake, and Brett. They were going to launch a rocket at a contest. They wanted to beat Anthony's rocket.

2

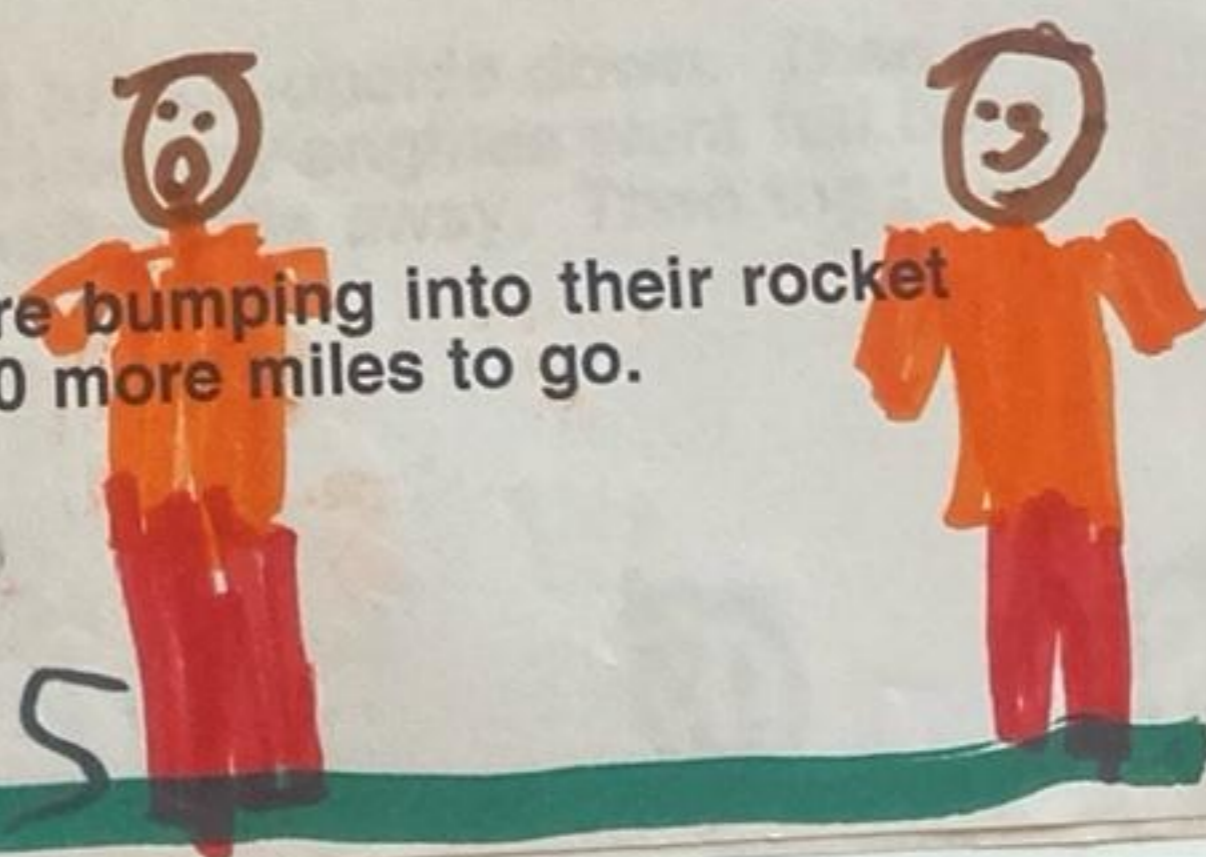

All of a sudden Jake spotted the field. The six boys climbed out of the camper. Kyle and Jake had to set up the stand because Danny J. and Danny H. were too busy complaining. Brett told Danny J. the rockets were starting to launch.

Their rocket, the space shuttle, zoomed into the sky. All of a sudden Anthony's rocket dropped a bomb! It hit the space shuttle and blew up! Jake quickly sent up another rocket, and it fixed the other rocket. They still had to go a million miles.

The other rockets were bumping into their rocket now. They had just 30 more miles to go.

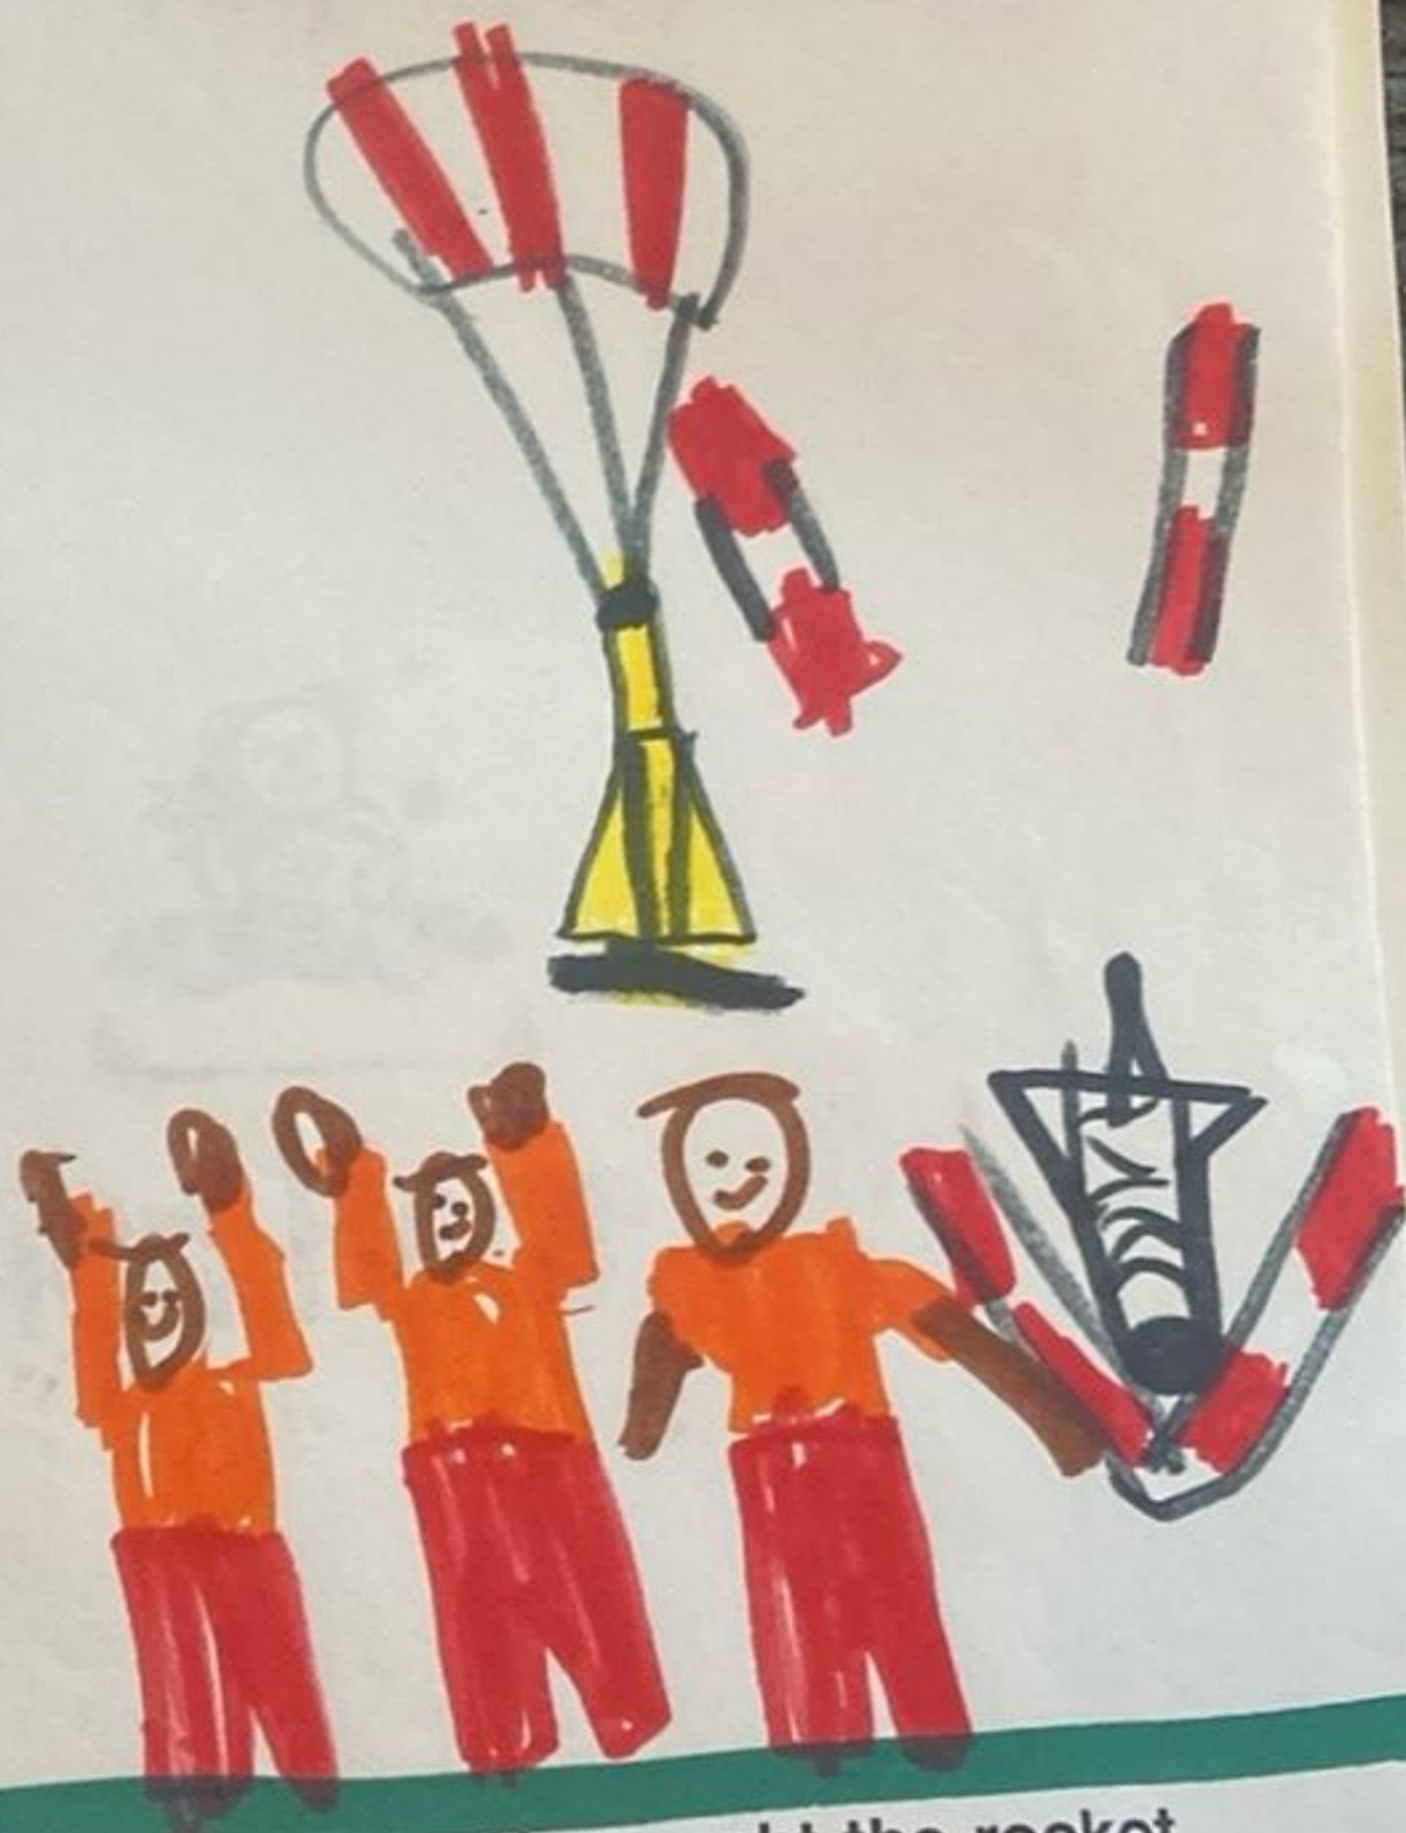

Then their rocket turned upside down. Then it went right side up. Then the engines went full blast and they were only half a mile away. Then the tanks fell off!

6

Brad saw the obiter land. He caught the rocket and they won! They won a golden rocket. All the boys were happy and went home.
